

SW England Infinity Roadshow

Infinity is a 28mm metal miniatures game simulating special operations & skirmishes in a high technology sci-fi universe, an exciting and action-packed near future where secret missions, black ops and covert actions determine the destiny of Humankind.

Based on an order/reaction system and opposed dice rolls, Infinity is fast-paced and brutal as your skirmish forces battle through terrain.

At the roadshow you can get intro games, find out about the background, get free copies of the quick start rules and maybe even some other freebies...
